## TOP 1: Begrüßung und Feststellung der Beschlussfähigkeit // Welcoming and establishing the quorum

*Es sind 22/27 Mitgliedern anwesend, Beschlussfähigkeit ist gegeben.*

## TOP 2: Beschluss der Tagesordnung // Resolution of the agenda

**Vivien Pejic (SDS):** Ich möchte vorschlagen alle Protokolle zu vertagen. Ich hatte immer noch keine Zeit die zu bearbeiten.

**Sönke Beier (BFF):** Keine Gegenrede, aber nächstes Mal wirklich darüber abstimmen.

**Vivien Pejic:** Zu Sönke: Wir müssen sie irgendwann mal beschließen, aber es gibt keinen Nachteil daraus dies später zu tun. Ist mir lieber als Protokolle zu beschließen, mit denen wir nicht zufrieden sind. Bei der Diskussion um GePo und Antira fehlten viele Redebeiträge.

**Philipp Okonek (BFF):** Ich habe euch eine Skizze für Ausschreibung des Rechnungsprüfungsausschuss geschickt. Kommt das auf die TO?

**Vivien Pejic:** Wo hast du das hingeschickt?

**Philipp Okonek:** Ans Präsidium, geht gleich an alle.

**Vivien Pejic:** Fehlt der Antrag von Pangea vom 13.01.?

**Anne Haußner (Grüner Campus):** Es ging mehr um die Hochschulgruppen, dass diese sich bezüglich der Angelegenheit melden. Das war kein Antrag.

**Jessica Obst (UP.rising. Präsidium):** Die Deadline war zudem der 15.01., deswegen lohnt sich das nicht in Sitzungsmappe.

**Vivien Pejic:** Did not see the Deadline. Mails were often very late. Can the Präsidium do anything about that?

**Anne Haußner:** I will ask Selina, if it is still possible to join.

**Marie Schwarz (GHG, Präsidium):** Vivien was wondering because the mail was late. We apologize for that. We will check the mails more often.

**Abstimmung der Tagesordnung: 19 Ja/0 Nein/2 Enthaltungen**

**Die Tagesordnung ist damit angenommen.**

## TOP 3: Berichte // Reports

### Top 3.1: Berichte des StuPa-Präsidiums // Reports from the StuPa presidency

**Moritz Pleuse (Jusos, Präsidium):** AStA has problem to know when to send Rechenschaftsberichte. Should be sent to the ordinary sessions.

**Marie Schwarz:** AStA isn't here so maybe later again.

**Point of order by Vivien Pejic to switch the points AStA Structure and AStA Election on the agenda.**

**Vivien Pejic:** We should first talk about the structure and then about the election.

**Nobody speaks against.**

**Point of order is accepted.**

### Top 3.2: Berichte des AStA // Reports from the AStA

*Verschoben bis der AStA anwesend ist. // Postponed until the AStA is here.*

### Top 3.3: Berichte der VeFa // Reports from the VeFa

*Keine Berichte // No reports*

### Top 3.4: Sonstige Berichte // Other reports

**Sara Meyer (BEAT):** The working group for English in StuPa met for the first time. Only three people were there. We started translating the Satzungsordnung of the StuPa. We will start with other regulations in the next weeks. The next meeting is on Friday on 7:30 pm.

**Marie Schwarz:** Maybe you have also an idea with the grammar in the protocols.

**Sara Meyer:** We talked about this. We will send an application regarding this topic. We want to assign a person from the stupa to translate and give them an Aufwandsentschädigung. If people from

StuPa ignore the plea to speak English, the person will be responsible for translating in the chat. What is your opinion?

**Marie Schwarz:** I think, it is a good idea.

**Tilman Kolbe (SDS):** I want to inform you, what is happening with the semesterticket now. Last Thursday, I signed the semesterticket contract. The VBB was not able to send it via Mail. There were some concerns from the university last week because of the higher price, but we negotiated to get that money back from the state of Brandenburg. I have figured that out at least. The money will come from government, but that will be quite complicated. Unfortunately, the university decided that the signatures from the VBB are not enough so the Rückmeldezeitraum is delayed. We try everything to get the missing signatures from ViP and S-Bahn as soon as possible. The ViP will sign today or tomorrow. We try to figure out, who would be able to start it. We have the signature from the head company. The chancellor is careful about the topic and wants to wait. We are not sure when the Rückmeldezeitraum starts. It would be okay but a quite short Rückmeldezeitraum. This will be topic in the university presidency meeting tomorrow. Hopefully, you do not have to pay the 10€ for delayed payment. In the end it is going to work out somehow.

**Philipp Okonek:** We are member of the fzs but we are not on the mailing list. The Präsidium could ask the chair of the fzs to get on that list.

**Marie Schwarz:** Good idea. I asked Jonathan to say something on the fzs today, so maybe we can talk later about that as well.

**Philipp Okonek:** Is that the point, where we wanted to talk about RPA text? Basically, it is the same text as in 2019. But more information is needed, as well as changes in the deadlines. I deleted the seminar, but it is said, that people with experience would be preferred. The limits for the work are not defined. We have to take a close look on that while electing.

**Tilman Kolbe:** What do we want to do? The Präsidium prepares and we will decide?

**Marie Schwarz:** The Präsidium will write a text and the StuPa will check it.

**Tilman Kolbe:** Thank you Philipp. I am not sure, if students know what the actual work is. I am worried, that they do not know what is going on. Maybe we can send last year's report, so they know what must be done. I think, we need to provide more information.

**Marie Schwarz:** Maybe we could do it in a pad like the AStA Ausschreibungen. I do not know what the RPA has to do.

**Marc Rosenau (UP.rising):** We can use Philipp's text as a baseline and you can give a deadline till when stupa member can write something.

**Tilman Kolbe:** That sounds like a good idea. Maybe you can send the link of the protocol.

**Philipp Okonek:** We can just link the report itself and look on important paragraphs. Most of us do not know much about it, we should ask the finance department.

**Vivien Pejic:** We have to talk to the seminar anyways. Maybe they can help the new persons.

**Tilman Kolbe:** About the compensation: 3200€ is a lot of money. How much was it last time for the people who were responsible?

**Philipp Okonek:** Normally it was a few hundred Euros for the people who wrote the report. This should compensate the work before writing the report this year.

**Marie Schwarz:** We will send a pad tomorrow. You have one week time to respond, then we will send the mail. For the AStA: We just talked about the mail for the RPA. We will make a pad with the text and everybody can add information or change it. Moritz mentioned your reports. It would be good when they come for ordinary sessions on the Monday before.

**Clara Margull (AStA):** About the exam situation: We discussed it. We sent out a mail to all students and had many replies with long texts. We are taking care of them and collect them. We will speak to Musil on Friday to discuss alternatives. We will also contact Günther. A small goal is that the website for corona is more structured. We will see what is going to happen on Friday. Many students told us their problems and we have a lot on hands to put pressure to the university.

**Vivien Pejic:** Maybe we could go on with further reports first? Last week, the new year's event took place online. I did not have the chance to watch it. We had a working group to exclude the AFD. I asked whether they are invited. This year Günther asked the Verfassungsschutz about that topic. The Verfassungsschutz said, that they are right wing extremists so he will not invite them anymore. I think it is weak to just base it on the VS. The university should clearly say that there is no place for right wing people. But it is okay that the president is somehow trying to work that out. Last year, we had the question on a report on that topic. Now we have time until next year. Another topic: Nouli and BEAT had invited for an extraordinary session last week and the Präsidium had no time. We need a regulation on that. We have the right to have extraordinary meetings. It is important that we always have time to meet as a stupa. We should respect that.

**Marie Schwarz:** Maybe it is better to first speak with the Präsidium. It was just one week that was full for us.

**Marc Rosenau:** It is the 9<sup>th</sup> extraordinary session. And it was the first time the Präsidium did not have time. It was the first time that happened. I do not see the problem here.

**Vivien Pejic:** It is the 9<sup>th</sup> session of the parliament. It was the first time but it was very important. I totally understand that the presidency do not have time. A session I find important cannot take place but a session I found unimportant took place in December because it was from another political group. In my opinion there could have been solutions. Also to Marie: Sure we could talk to you but we mentioned a session next week. Many members left the session. You knew that it would follow an extraordinary session. The members of the presidency left the last meeting because the topic was not important for them.

**Marie Schwarz:** Now it is not the room for that.

### [Top 3.2: Berichte des AStA // Reports from the AStA](#)

**Jonathan Wieggers (AStA):** I have an update on the thread of the president against the AStA because of the lawer for the 51€ campaign, regarding the StuPa-Beschluss from October. He wants to thread us because we are supporting people who fight against the illegal Rückmeldegebühren. We sent a strong answer today, that president is not in the rights. It is a clearly political threat. I think it is scandalous. It is really a shame. This will be topic in Brandenburg state politics. Concerning fzs: There will be an increase of individual study time for the winter semester. Everybody will get an extra semester on the Regelstudienzeit. We will write to all students, so they know about that. There will be a meeting concerning presence exams, Corona finances and technical support for people with no money. The conference on that will take place tomorrow. The BrandStuVe will elect a new speaking council. I will definitely apply for that. I look forward to start the dialogue process again concerning university law and science and research.

**Jasper Wiezorek (Jusos):** Thanks for the big report. Good luck for your second application. We stand behind the AStA concerning the letter from the president. I do not see where he tries to frighten you.

**Jonathan Wiegers:** The letter is a political statement and a scenario of threat. On 7<sup>th</sup> of January, the university got the letter for the lawsuit, it is a direct action on that. It is not directly in the words but a threat itself. He is going into our legal autonomy. Philipp asked about the idea to put stupa members on the fzs list. I think it is a great idea, I support that.

**Katherina Kraft (AStA):** We are now planning the 8<sup>th</sup> of march with other groups. There will be group actions and a demonstration on 7<sup>th</sup> of march with DJanes and lots of speeches. We have a new way with Babelsberg and Schlaatz. Stops will be at Kuze, femarchiv and Rechenzentrum. The demonstration will take place nevertheless during corona with DJanes and speeches to make sound in the city. If there are feminists to join, they are welcome to do so. In the university there were sexual harassments from lecturers. We had different meetings, e.g. with Christina Wolff. She has a blacklist for lecturers. That are people who are still at the university. Now, through online scholarship, there are even more problems. There will be a campaign about that topic. Also, there was a conference from queer and feminists departments in Germany. The goal is to make it possible to have one professional person for that problems. We want to create a working group; I will send a mail then. We have a lot of shitty lecturers who are doing like they want to. It is a huge problem, we want to get more attention for that. Other topic: Teilzeitstudium: There is one scandalous case where we wrote a statement. Wanting Hartz4 is not a reason, even if she is an alone mother. We want to reach that the university changes its behaviour on that. I have a lot of ideas. I asked FSRs to work on that and if there Fach does not allow part time studies.

## Top 4: Gäste // Guests

**Florian Franke (Gast):** I am from Speak.UP. Katherina invited me. I just want to take a look on stupa work.

## Top 6: Anträge // Applications

### Top 6.1: Changing the AStA Structure

**Estelí Garcia (AStA):** I want to make clear that we need the support from a third member in the department. I really need a German speaker; I already feel overwhelmed. I really support having some support. If its Eda that would be great, but another person would be fine too.

**Vivien Pejic:** We talked about that topic in a lot of detail in the last session and Estelí also mentioned that we have two English speaking people, but it is important that people have a person who speaks a language they feel comfortable with. There is already one issue. We have a lot of important regulations and formal stuff. If there is only a German version, they need someone to translate. They need help to stand for themselves and that is a problem if nobody understands them. Would be important to have the third department. Angelo said: difficult process for election, lot of work leigh down. Lot of workload on the department. I think regarding workload and to protect people a third member would be important.

**Noah Leichner (AStA):** You got mails from gender politics department regarding the election for the second position in Antira. We knew about the problem and we were right. It is 2 month later and the Antira department does not work.

**Nahida Zarin (AStA):** Right now, I am working on legal counselling for people affected by racism. There is no permanent employee for antiracism. Regarding the third position: Every student should

have the possibility to get elected. The vacancy should be announced, whether Eda is elected in the end or not.

**Sönke Beier:** Idea with the cooperation with adb is supported by Jusos, UP.rising and BFF. Nahida and Esteli, don't you think that is a solution for the problem with the German language? Do you need a person to help with the political work in the AStA?

**Nahida Zarin:** We can convert E-Mails from English to German. At the moment, there is no problem for me. But that is just my opinion.

**Noah Leichner:** To answer to Sönke: It is not about counselling. There are questions which cannot be answered by persons who do not speak German. It is a lot of extra effort and extra work to translate everything. Things like emotions will get lost in translation. Esteli mentioned she is overwhelmed. If there will be another counselling job, consider how long that would take to fill the position. Right now, it is the job for the Antira department.

**Dulguun Shirchinbal (Grüner Campus):** It is great to hear that some lists support a certain idea. Now it is time to hear to the black people in StuPa. Look at the current situation of the AStA. Now, suddenly, there is a new idea for consultation which is great. As you all know those processes take a long time. That is valuable time we will lose. The most logical solution is to elect a third person. It is right, candidates have to go through the election process. The vacancy was announced twice, if there is an application, the StuPa must consider it. My suggestion would be to go with both, elect a third person and have a counselling. Keep in mind we are working with people who are affected by racism.

**Tilman Kolbe:** In general, having a cooperation is a good idea. We had that cooperation with the adb, I am not sure why it ended but there were problems. I am not sure what it was. There was a reason we ended it. It would be good to talk to people from back then, Fathia for example. It is still necessary to find someone to help right now. For the cooperation, there would be a German person too. Eda had a good application; I have no doubts on her. There was a publication of vacancies twice. Last time Angelo told me that he is doing translations for the department. We should improve the work of Antira.

**Moritz Pleuse:** The last elections took too much time. The last announcement showed us that there were much more people interested in the department. Every student should have the opportunity to write an application.

**Asya Mzee (AStA):** I want to voice my support for a third person in Antira. Sometimes meaning is lost by translations. Best example: Jasper decided to express himself in German because he felt more comfortable with that.

**Martin Nguyen (SDS):** I do not know what the concrete problem is the third person with. Elections were in October. Since then, the department was not able to work. I do not understand what you mean by political work. Rasan has done much of that work. I do not understand why Eda is not a person from the middle of the students. You blocked this the whole semester. Start Actions now.

**Nahida Zarin:** Everyone has the right to participate.

**Jonathan Wiegers:** I highly support a third person in Antira. Because of Corona many counselling places from the city are closed now. It is important to take action now. Persons who are affected by racism need help now and do not speak English. They do not have time to survive in a lifelong process. We have Eda. Eda is well educated. It takes time to elect someone. We should get the view of people who are affected.

**Dulguun Shirchinbal:** You wrote it out in September and November. Who is still interested will keep track if there are new open positions. The Stupa does not have the obligation to announce every vacant position. One can apply every time. I want to emphasize for the time lost by not making the antiracism department fully functional. In respect on Angelo who has helped. There are actions that go further than writing emails. I am surprised you want to wait longer. It is time to look at your positions and what you are deciding on.

**Marc Rosenau:** First I want to say that I fully support Nahidas position. I also see the need for a third person, but this person must have the chance to apply. To Martin: Questions from Sönke was if German is only needed in consulting or in political work too. Regarding Noah: Why is there a communication problem in AStA? Shubham had no problems, now there are problems. I do not understand that.

**Johanna Lagemann (AStA):** For me it is a lot of work because we have no second person in my department in the AStA. I would appreciate another write out.

**Florian Rumprecht (AStA):** Marc, why Shubham was not a problem: He asked a lot of people when he started a new project. He was lucky having a lot of people helping him, but that is not the case now. I hope you understand. It is always a balance. It is a real problem. We can try to pragmatically solve it. An optimal procedure will take much longer, the also good solution is shorter. Pessimistic we have a new person in 3 months. Traditionally, the StuPa board is responsible for announcement, but every student can apply for every session. It is a question of communication.

**Vivien Pejic:** I agree with Florian and many persons. I want to hear why waiting still makes sense.

**Jasper Wiezorek:** To Florian: I want to suggest a compromise: We will do a public announcement but only for one week. It is the job of the lists to get in touch with candidates. This will be a delay of 5 working days with a short announcement.

**Marie Schwarz:** To Nahida: Are you in favour of 3 persons in the department?

**Nahida Zarin:** I am in favour of a third person but should be publicly announced.

**Marie Schwarz:** We could write to the old applicants, waiting for answers till Friday and then do the election. I do not think every student always checks for free positions in the AStA.

**Sönke Beier:** Ich stelle einen **Änderungsantrag: Das Antira-Referat wird in der Struktur auf drei Personen erhöht, die dritte Stelle wird vor der Wahl allerdings erst ausgeschrieben.** Dies sollte so schnell wie möglich passieren, können auf nächster Sitzung wählen.

**Point of order by Sönke Beier to close the speakers list.**

**Dulguun Shirchinbal:** (Counter Speech) I do not need to explain, I am just against.

**Voting on the point of order: 13 yes/8 no/3 abstentions**  
**Accepted, the speakers list is closed.**

**Katherina Kraft:** I would understand all this promoting stuff if there was not a great candidate. I still wonder what the concerns against her are. I do not understand you Nahida, I have overthrown my limit for that problems because my department is linked. There is this perfect candidate Eda. It is a gift to have her. She is speaking German but is not a German native. She is a migrant. She lived a lot of years in Turkey and knows how it is to be "fremd" here and to be a member of the society. It is important that she is speaking Turkish. I do not understand why we do not just take her. She is well educated. She immediately joined our groups for 8<sup>th</sup> of march and purple over night. She is just

perfect. I do not understand. Some people do not understand the problem. I am interested in what is your point against Eda. Nahida is a great candidate for international.

**Martin Nguyen:** Wir schreiben dann zum 3. Mal aus. Wir haben die Leute bereits erreicht, man kann sich jederzeit bewerben. Wir haben Eda, die voll gut und qualifiziert ist. Der AStA spricht sich dafür aus. Das StuPa hat es einfach ignoriert. Eine Briefwahl würde wieder ewig dauern. Es ist eine krasse Hemmschwelle, wenn man nicht auf Englisch seine Emotionen ausdrücken kann. Lasst uns das jetzt abstimmen und Eda wählen. Ihr wollt doch das Referat blockieren.

**Dulguun Shirchinbal:** Filling in the position is possible. We do not need to announce it. It clearly says if it is not possible to fill a department. We are talking about bureaucracy over students' needs. There is the need for a German speaking person. People like me are telling you that we need one person. We warned you about the problems, but why are we taking so long to solve that problem? Maybe we should take a break.

**Philipp Okonek:** Is it planned to announce the vacancy in the international department? Shubham stepped down after announcements. Maybe some international students are more interested in the international department. It is a good idea to shorten the time in the announcement.

**Vivien Pejic:** I am still against the advertisement. It is funny Philipp, you mentioned to limit the time. There is no need to advertise it. I do not see the connection with the international department. We already said that advertisement is only needed for vacancies but not needed now. In fact, it will be only a new structure and people can apply every time. On what Moritz was talking about that it was too much effort to make two advertisements: The students are far more important. I was in the StuPa presidency too. You should step back when you do not have enough time. We have a great applicant and the possibility to elect her without voting. To Marie: That is a thing between Nahida and Eda. Eda has good political knowledge and knows the structures. You saw the problem coming and had not any plan. I said it two weeks ago too that in December I did see the need to put the structure on three persons. That is why Noah said we told you so. What I want to say is that you should try to understand those structures because you are privileged. At the beginning we talked about counselling. Both combined would be the best solution. AStA for political context. All in all, we had so many discussions, I am glad that you see the need. The third person is urgently need.

**Asya Mzee:** Couple of things: Everybody has his/her own opinion. I think it is important to consider the workload of the AStA people. Save yourself time and stress. It would be easiest to vote for somebody who is already in position. Many discussions in the chat were difficult for me.

**5 minutes break**

**Begin: 22:02**

**End: 22:07**

**Voting on the changes in the application by Sönke (Abstimmung über Sönkes Änderungsantrag): 11 yes/10 no/2 abstentions**  
**The change is accepted.**

**Jasper Wiezorek:** Is a shorter time for the announcement possible?

**Moritz Pleuse:** Yes

**Voting on the application to change the structure with changes by Sönke: 20 yes/0 no/0 abstentions**  
**Changed application accepted**

## Top 5: AStA Election

**Vivien Pejic:** Has Eda sent in her application? Was Boyana invited?

**Marie Schwarz:** Not yet. Boyana was not invited since her application came in yesterday.

**Sönke Beier: Point of order to postpone the AStA Election.**

**Vivien Pejic:** (Counter Speech) It would be disrespectful because Eda wrote her application now. Not making the election is disrespectful. We have a problem now. Eda is a strong candidate.

**Voting on the point of order to postpone the AStA election: 10 yes/11 no/1 abstention**  
**The election is not postponed.**

**Tilman Kolbe:** Eda wrote an application a minute ago. Two people are applying right now. I am very much in favour of getting Eda elected. I want to have a conversation with the person for the international department. Maybe we can talk with this person next week. When we sent out an announcement, then we can talk about that applications too. We have an election starting tomorrow. There are vacancies where nobody applied.

**Vivien Pejic:** Regarding Micha's question in the Chat: Application was to publicly announce it. But the topic is on the agenda right now. It does not exclude itself.

**5 minutes break for the presidency**

**Begin: 22:28**

**End: 22:33**

**Moritz Pleuse:** We are starting the election tomorrow. We will also send out an announcement for one week. We want to talk about the statement on the presence exams next.

**Vivien Pejic:** Great that the structure was "einstimmig". It is also a message we are sending out that we see the need to fill out this position. Regarding the application of Eda: Has anybody any concerns?

**Sönke Beier:** Verständnisfrage: Danach mein Antrag? Der ist nicht so lang, das dauert maximal 10 Minuten.

**Marc Rosenau:** Regarding Vivien: I am a bit concerned; we will have a public announcement for 7 days. Then we will have new applications and another vote.

**Point of order by Vivien Pejic to elect Eda for antiracism without voting.**

**Moritz Pleuse:** We have in fact two candidates, Moha wrote after the last election that he still wants to candidate.

**Martin Nguyen:** She applied when old positions were vacant. Vivien just wanted doubts about Eda not the procedure.

**Linus Beyer (UP.rising):** I am against the election without voting.

**§15(2) 16. StuPa GO: Someone spoke against so an election without voting is not possible.**

## Top 7: Initiativanträge // Initiative applications

### Top 7.1: Unterstützungsschreiben für kostenlose Menstruationsartikel an der UP / Letter of support for free menstrual items at UP

**Voting on talking about that application: 20 yes/ 0 no/ 0 abstentions**

**We talk about that application.**

**Sönke Beier:** In general, we want to call our university management for free hygiene product. It is at other universities, like Scotland and Merseburg, already the case. There are many reasons for why free products should be offered. Having the period is like going to toilet where you need toilet paper. Toilet paper is provided so it is not understandable why there are no free hygiene products. These products are very expensive for a person who is affected. The society should show be solidarity. And, probably, a still tabued subject could be more public.

**Vivien Pejic:** I do not have the application in front of me. Is it speaking of hygiene articles? Maybe change that? You should not compare menstruation with going to the toilet.

**Sönke Beier:** Ich hatte gerade kein besseres Wort auf Englisch. Im Antrag steht Menstruationsartikel. Warum ich das verglichen habe: Danke, wenn wir alle menstruieren würden, wäre es keine Frage, ob es diese Produkte gibt. Es ist ein Notfall wenn man die Tage hat. Wenn wir das alle hätten, wäre das keine Diskussion wert. Nur ein Teil von uns hat das Problem. Möchte damit nur sagen, dass es für die Personen, die nicht menstruieren, kein Vorteil ist, diese nicht zu bekommen, aber alle die sie brauchen, müssen sie bekommen.

**Dulguun Shirchinbal:** Thank you for the application. Just an addition to Vivien's Point: Menstruation should be named as such. Menstruation is not a problem. I have a question: I would be worried about the brand. It is a serious topic that does not get talked about enough. Also, there should be information about TSS and menstruation cups. People should know more about that.

**Marie Schwarz:** Vivi from GHG spoke with Einhorn which is a brand from Berlin.

**Aron Hävernack (GHG):** Persons from all lists wrote on this application. There was another mail from the university where they said they want to do exams in presence. I think it is very necessary to speak against that. I hope there is not so much need for discussion.

**Johanna Lagemann (AStA):** I want to thank the persons who wrote on that. I was the person who initially asked for the statement.

**Vivien Pejic:** Thank you from me to everyone who worked on that. The SDS also supports that. We have two slight changes: We just included that "aus der Nichtteilnahme darf Studierenden kein Nachteil erwachsen". Das ist eine Präzision der Forderung. Es ist wichtig die Prüfung abzulegen für

die Leistungspunkte um den Abschluss zum nächstmöglichen Zeitpunkt zu haben. Außerdem Bezug auf Bafögregelungen. (Siehe Pad)

**Florian Rumprecht:** Hoffe, ihr habt alle den Antrag gelesen. Einmal im Jahr gibt es eine Gegenveranstaltung zum Herrentag mit Safe Space gegen durch die Gegend ziehende betrunkene Männerbanden. Geplant ist buntes Programm für den ganzen Tag. Dies findet regelmäßig im Freiland statt. Dieses Jahr ist allerdings nicht alles dort, da sie Geburtstag feiern. Deswegen ist dieses Jahr im KuZe und Freiland etwas geplant. Wir haben mit entsprechenden Locations gesprochen. Unklare Pandemielage, dessen sind wir uns bewusst. Wir stellen absichtlich den Maximalantrag, sind optimistisch, dass die Veranstaltung stattfinden kann. Sind dabei, in Absprache mit KuZe, gutes Konzept für Hybrid oder Digital zu entwickeln.

**Sönke Beier:** Nachfrage Soliküche: Wird es eine Refinanzierung des Einkaufspreises geben? Unter den Einnahmen steht nix von Einnahmen Soliküche.

**Katherina Kraft:** Wir haben darüber diskutiert, es gab die Idee es zu refinanzieren, indem wir Wahl lassen, was bezahlt werden könnte. Wir wollen, dass alle gepflegt werden können.

**Sönke Beier:** Würde das Geld, was eingenommen wird, an den Asta zurückgehen?

**Dulguun Shirchinbal:** Ergänzung: Vom Essen eingenommenes Geld kann auch gespendet werden, je nach Absprache der Orga-Gruppe.

**Sönke Beier:** Der Finanzleitfaden sagt, Verpflegung muss refinanziert sein. Unfair FSRs gegenüber, wenn das für FSRs gilt und für andere nicht. Klar kann eine Extrabox mit Spenden dastehen.

**Katherina Kraft:** Sind noch am Diskutieren. Erster Schritt ist es, den Finanzantrag zu stellen. Ich finde es FSRs gegenüber unfair, vielleicht sollten wir lieber daran arbeiten, dass es FSRs erlaubt werden sollte. Wir wollen, dass Familien dort essen bekommen können. Ist was anderes als eine Weihnachtsfeier. Ich finde das im FSR-Finanzleitfaden unfair.

**Sönke Beier:** Ich finde, wenn es so drinsteht, dann sollte mit den Einnahmen geplant werden. Solikasse finde ich in Ordnung. Wenn wir es ändern wollen, dann für alle, keine Ausnahme für nur einen.

**Katherina Kraft:** Ja, das war die Idee der Solikasse. Wir haben damit gute Erfahrungen gemacht.

## Top 8: Sonstiges // Other matters

**Linus Beyer:** Ich möchte daran erinnern, dass der AStA die genaue Aufteilung der Aufwandsentschädigungen offenzulegen hat.

**Jonathan Wiegers:** Werden das gegebenenfalls nachreichen, müssen aber vorher im AStA besprechen, wie wir das anstellen wollen. Wichtig ist, anzusprechen, dass es einen formalen Fehler vom Präsidium im Protokoll gegeben hat. Wichtig, dass das allen klar ist.
